

To the
Members of the International Husserl Circle

Milwaukee, 1/12/2008

Dear Friends and Colleagues,

Greetings once again and a belated Happy New Year to everybody! This is an update on the next Husserl Circle Meeting at Marquette University in Milwaukee on June 26-29, 2008.

It is not too late to submit a paper or an abstract to the conference. Hence, here are the submission dates and guidelines once more: We prefer electronic submissions (by email, either to Sebastian or to Pol, see email addresses below). The deadline for submissions is March 1 and speakers will be notified by April 7. Please limit your talk to 20-30 minutes and commentators have ca. 10 minutes to respond, to leave ample time for discussion. In the case of an acceptance, we will be asking you to submit your full paper ca. one month ahead of the conference to include it in the booklet that will be made available to all participants. We are expecting a good number of paper submissions; hence, in the event that we have too many submissions to include in the program, we will give preference to full papers over abstracts. We also ask you to identify yourself in your submissions, as we intend to include a significant percentage of graduate students or scholars who have not yet presented at the Husserl Circle. If you are willing to also serve as a commentator for another paper and/or chair a session, please indicate that with your application. You are also welcome to only serve as commentator or session chair; please let us know if you would be able to attend and willing to take over one of these functions. As additional feature, we are planning to have a session (3-4 papers) from undergraduate students. Hence, please pass this call for papers on to the undergraduates at your institutions who you think are qualified to give a talk.
